Passaic River: Today we released the Passaic River Superfund proposed plan. Very well attended event on the banks of the Passaic River in Newark, NJ. Speakers included: Senator Bob Menendez, Senator Corey Booker, Congressmembers Pascrell, Frelinghuysen and Payne, NJ Commissioner Bob Martin, Mayor of Newark, Executive Director of the Ironbound Community Corp - a leading ej group in Newark. The proposed remedy is dredging 4.3 million from lower 8 miles, de-watering and then sending sediment off site by rail for disposal. We asked for specific public comment on siting a CAD cell in Newark Bay and for public comment on the navigational dredging element. EPA was extremely well received. See a few photos below.
